- Highest residential security rating
- 3 year battery life
- Reversible lever to fit left-hand or right-hand doors

Property managers can disable the Passage Mode so that it auto-locks every time and a key or code is always required for entry. This is ideal for restrooms in restaurants and gas stations.

## User Codes

- Up to 30 user access codes that can be customized for sharing with employees, maintenance personnel and service professionals
- User can program a one time user code for emergencies, which deletes after first usage
- For added convenience, property managers can program the lock from the outside with a programming code.

### HOW TO RE-KEY YOUR LOCK IN SECONDS

(B) Remove the SmartKey tool and the current key.

**3** (A) Fully insert your new key into the lock, and rotate it 180°.
