security ecosystem

WHAT IS A SMART HUB?

A smart hub is a small device you'll connect to your home's internet. It allows you to control compatible smart devices from anywhere using an app on your phone.

A SMART HOME Knowledge Guide

What is Matter?

- A universal smart home language that allows devices to talk to each other regardless of brand.

Why does it matter?

- Simplifies control and automations for your devices in one Matter compatible app.

How to connect?

- Matter devices come with a setup QR code. Scan it in a smart home app and you are setup. Done!

Do I need Wi-Fi?

- No. Matter uses a Thread network, not Wi-Fi, for reliable, local control even without internet.

What is compatible?

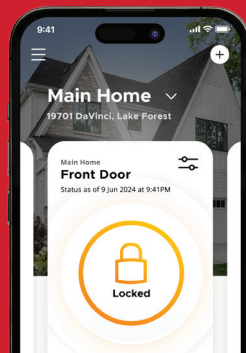

- Major smart home brands support Matter, ensuring easy, universal device compatibility.

The Kwikset App
Smart, Secure, and Convenient
Remote Lock Control at Your Fingertips

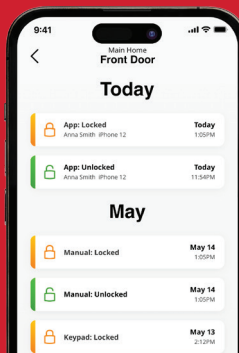

Lock and unlock from your phone

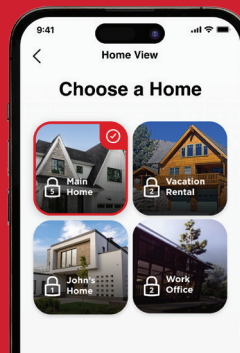

Check the current status of your lock and know your home is secure
