

San Clemente™ handleset with Microban® antimicrobial protection.

Kwikset with Microban® protection is effective against a broad spectrum of product-damaging bacteria. Bacteria can double every 20 minutes on unprotected surfaces, but Kwikset door hardware with Microban protection works to continuously fight off microbes.

99.9% Cleaner Than Unprotected Surface

Unprotected Surface vs. Protected with MICROBAN

Look for the Microban logo on Kwikset packaging.
