We’re the lock brand that works hard to understand the world you live in

so that we can do everything we can to protect it.

Our products provide customers with the quality, technology, durability and style they want while always guaranteeing the highest level of security.
WHO IS BHMA®?

The Builders Hardware Manufactures Association "BHMA" is the only organization accredited by the American National Standards Institute (ANSI) to develop and maintain performance standards for door hardware. Any product bearing the BHMA Certified® Secure Home™ label has been tested and audited according to these standards - the highest in the industry - to ensure product quality.

WHAT GETS TESTED?

- Lock Operation
- Key Cycle
- Pull Strength
- Impact Resistance
- Finish Performance
## 660 DEADBOLT SERIES

**Description**

The 660 Deadbolt offers ANSI/BHMA certified security at an affordable price. Add to a keyed knob or lever for additional security.

**Available Finishes:** 3, 5, 11P, 15, 15A, 26, 26D, 514

**Features & Benefits**

- Features SmartKey Security™
- Features Adjustable Latch & Deadbolt to Fit All Standard Door Preparations
- One-sided Deadbolt Available

## LADERA LEVER

**Description**

A smart solution for multi-family housing and other commercial spaces, the Ladera lever offers ANSI/BHMA certified security and fits a wide range of traditional and contemporary decorative styles.

**Available Finishes:** 11P, 15, 26, 26D and 514*

Halo smart locks connect directly to your existing Wi-Fi router and smartphone to create a simple and secure smart home, without a third-party hub, panel or subscription service.
An Innovative Product
A Great Revenue Generator

• Generate additional revenue by charging a monthly upgrade fee and Kevo will more than pay for itself.
• Attract long lasting tenants with this upgrade and technology.
• Low maintenance means fewer tenant headaches and less time and money wasted.
• SmartKey allows you to rekey in seconds when a new tenant signs a lease.
• Personalize your property and retain current residents while also attracting new ones.

Select Kwikset® products feature Microban® Antimicrobial Protection.

Bacteria can double every 20 minutes on unprotected surfaces, but Kwikset Door Hardware with Microban product protection works to continuously fight off microbes.

Benefits of Kwikset® Door Hardware with Microban® Technology

- Door hardware is 99.9% cleaner than knobs without Microban.
- The antimicrobial coating last for the lifetime of the hardware finish, so you can worry less and feel more secure in your home.
- No need to clean door hardware – 24/7 Antimicrobial protection.
- Kwikset with Microban product protection is effective against a broad spectrum of bacteria.
THE SMART ALTERNATIVE TO MASTER KEYING

Re-keying & managing a traditional master key system is labor intensive, time consuming & costly. With the first & only two cylinder Key Control™ Deadbolt, either cylinder can be re-keyed in seconds, without removing the lock from the door.

- Two separate cylinders, Tenant & Property Manager allow for more tenant key cuts than a traditional master key system
- Proprietary keyway adds security - the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion

**HOW TO RE-KEY YOUR LOCK IN SECONDS**

1. Insert the key that currently operates your lock and rotate it 90° clockwise.
2. Insert the SmartKey tool fully and firmly into the SmartKey hole. Remove the SmartKey tool and the current key.
3. Fully insert your new key into the lock, and rotate it 180°. Rotate the new key 90° back to the starting position, and remove it. Your lock is now re-keyed to your new key, and your old key will no longer operate the lock.
Our philosophy is that a finish can make all the difference. From Polished Brass to Rustic Bronze, the finish you choose makes a statement. It can, quite literally, finish off a room, giving it style and polish. We offer a full spectrum of finishes and textures.

**FIND OUT HOW MUCH SMARTKEY CAN SAVE YOU**

Use our SmartKey Calculator to compare the cost of a traditional pin & tumbler re-key vs a SmartKey re-key. You will be amazed at the savings. As a building manager with hundreds of locks to maintain, it has never been faster or cheaper to re-key.

The Kwikset Saving Calculator allows you to share estimated time & cost savings with customers who are considering the purchase of SmartKey products.
