

SUPERIOR SECURITY

Kwikset's patented SmartKey Security™ protects against advanced break-in techniques.

- PICK RESISTANT
- BUMP PROOF
- RE-KEY TECHNOLOGY

SECURITY MADE CONVENIENT

SmartKey Security™ allows you to re-key your lock yourself in seconds.

REASONS TO RE-KEY

- Loaned or unreturned keys
- Recently moved, tenant turnover
- Your child has lost their key, again
- You have a different key for each door

HOW SMARTKEY SECURITY WORKS

Make sure you have your current key and SmartKey tool

1 Insert the key that currently operates your lock, and rotate it 90° clockwise.

2 **A** Insert the SmartKey tool fully and firmly into the SmartKey hole.
B Remove the SmartKey tool and the current key.

3 **A** Fully insert your new key into the lock, and rotate it 180°.
B Rotate the new key 90° back to the starting position, and remove it. Your lock is now re-keyed to your new key, and your old key will no longer operate the lock.

#1 SELLING U.S. LOCK BRAND*
