# Kwikset UNITE

**Kwikset UNITE™ electronic locks are the smart multifamily property upgrade for your mechanical locks.**

*The smart choice to secure and manage your multifamily property.*

Kwikset UNITE™ provides seamless access control and security for multifamily properties. The wireless design makes installation simple, repeatable and efficient. Offering the ability to preconfigure a system before being onsite, UNITE™ allows system integrators to get a head start on setting up a multifamily installation without ever having to be onsite. Simply preconfigure the system, and then hand off the locks to your onsite installer to finish the job. UNITE™ brings value to your business and the property owner's experience.

*The Kwikset UNITE™ EAC Platform offers convenient electronic and cloud-based access control for your multifamily property.*

The Kwikset UNITE™ EAC Platform is an elegant end-to-end solution for efficiently managing your multifamily property. Designed for multifamily property managers and their users, it features unit entry electronic locks, cloud-based web and mobile software and smart card and fob credentials. The platform increases rents, profits, productivity, convenience and security while lowering costs and vacancies.
