Mixermate™ Bottles

3091, 3092, 3093

The MixerMate™ Bottle is great for mixing salad dressing, gravy, powered drinks and more. Its see-through base has easy-to-read capacity markings, and it fits conveniently in most refrigerator doors.

Care, Use & Safety

To keep your new MixerMate™ Bottles looking and performing their best, we recommend the following:

- Remove label and wash before use.
- Do not use abrasive cleansers or scrubbers since they may dull the finish.
- This item is made of materials that are safe for normal household dishwashers. Be sure that the item is secured in the top rack so that it does not come in contact with the dishwasher element to avoid melting.
- Do not use utensils with sharp edges (i.e. knives) in the container, as they could scratch or scuff the container surface.
- Dairy, juice, or other liquids that spoil easily should not be kept in product for prolonged periods. Juice may start to ferment in as little as a day.
- Do not fill the container over the “fill line”.
- Not intended for use with carbonated beverages.
- Not intended for use in the freezer or microwave.
- **CAUTION**: Not intended for use with hot liquids as they may cause the sides of the bottle to get very hot to the touch, or a pressure build-up in the container could cause the lid to pop open unexpectedly leading to injury or spills.

This document is valid until the next relevant legislative and/or regulatory change with a maximum length of one year after the date of issue.
