

Size 4 Me® Buckle Replacement Guide

©2013 Graco PD246350A 5/13

To Remove Existing Harness Tongues and Buckle and Attach Replacement Buckle

1

Squeeze handle and pull up on headrest to highest position.

2

To loosen straps, lift lever and pull harness straps.

3

Remove harness strap loops from splitter plate.

4

Pull harness straps through seat back and seat pad.

5

Remove chest clip. **DO NOT DISCARD** the chest clip.

6

Unbuckle harness by tilting top of buckle down, press top of red button, and pull tongues out of buckle.

7

Remove and discard tongues.

8

Slide **NEW** buckle onto harness straps. **MAKE** sure not to twist straps.

9

Re-attach chest clip. **MAKE** sure not to twist straps.

10

Re-insert straps through slots in seat pad and seat back. See carseat owner's manual for proper height setting for your child.

11

Re-insert straps back onto splitter plate.

Turn page over to finish the rest of the assembly Steps 12 to 20 for the buckle replacement.

12

Undo 2 clips from front of seat pad.

13

Lift seat pad up and pull buckle through crotch slot.

14

Pull handle to put seat in most reclined position.

15

Reach under seat to the metal retainer. Push the retainer up through bottom of seat and remove buckle and discard.

16

Push button and remove tongues from the NEW buckle.

17

Insert metal retainer from NEW buckle into crotch slot in the seat bottom as shown.

18

Pull buckle up through seat pad and be sure it is secured in the slot.

19

Wrap seat pad around edge of seat and re-attach 2 clips (a) and pull adjustment strap through slot in front of seat pad (b). Tuck seat pad around the recline handle.

20

Insert NEW tongues into buckle.

21

FINAL CHECK :

- Tug on the buckle to be sure it is properly secured in the bottom of the seat and does not come out.
- MAKE SURE the harness straps are not twisted.
- Make sure the chest clip is properly threaded as shown in Step 9.
