# IMPORTANT SAFETY INSTRUCTIONS

#### WARNING:

To guard against injury, basic safety precautions should be observed, including the following:

# READ AND FOLLOW ALL SAFETY INSTRUCTIONS

**DANGER:** For each of the following situations, do not attempt repairs by yourself. Return the appliance to an authorized service facility for service or discard the appliance.

- 1. Carefully examine the appliance after installation. It should not be plugged in if there is water on any part of the unit.
- 2. Do not operate any appliance if it has a damaged cord or plug, or if it is malfunctioning or has been dropped or damaged in any manner.
- 3. To avoid the possibility of the appliance, APPLIANCE: plug, or outlet getting wet, position terrarium stand and terrarium to one side of a wall-mounted outlet to prevent water from dripping onto the plug or outlet. A drip-loop shown in the figure to the right POWER (see Fig. 1) should be arranged by the SUPPLY CORD user for each cord connecting a terrarium appliance to an outlet. The drip-loop is the part of the cord below the level of the outlet. or the connector if an extension cord is used. to prevent water traveling along the cord and coming in contact with the outlet.
- 4. If the plug or outlet does get wet, DO NOT unplug the cord. Disconnect the fuse or circuit breaker that supplies power to the appliance. Then, unplug and examine for presence of water in the outlet.
- ന  $\bigcirc$ DRIP-LOOP
  - Fig.1
- 5. Close supervision is necessary when any appliance is used near children. Not for use by children.
- 6. To avoid injury, do not touch moving parts or hot parts such as heaters, reflectors, lamp bulbs, and the like.
- 7. Always unplug an appliance from an outlet when not in use, before putting on or taking off parts, and before cleaning. Never yank cord to pull plug from outlet. Grasp the plug and pull to disconnect.
- 8. Do not use an appliance for anything other than its intended use. The use of attachments not recommended or sold by the appliance manufacturer may cause an unsafe condition.
- 9. Do not install or store the appliance where it will be exposed to the weather or temperatures below freezing.
- 10. Make sure an appliance mounted on a tank is securely installed before operating it.
- 11. Read and observe all the important notices on the appliances.

- 12. If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
- 13. The appliance is intended FOR HOUSEHOLD USE ONLY.
- 14. This appliance has no user serviceable parts.

# SAVE THESE INSTRUCTIONS

## **FCC INSTRUCTIONS**

### CAUTION:

Please note that changes or modifications of this product are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.Connect the equipment into an outlet on a circuit different from

the interference by one or more of the following measures:

- that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
