

SPLIT-LEVEL SANCTUARY RABBIT HABITAT ASSEMBLY INSTRUCTIONS

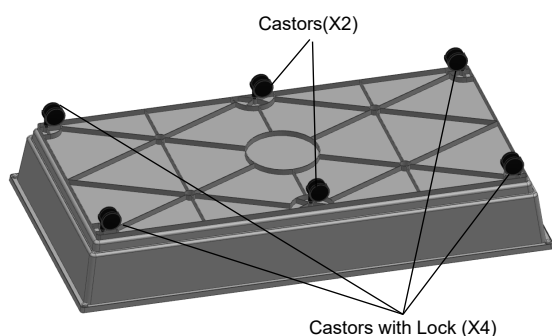

Item # 5318503

WARNING: Use care to avoid pinching of fingers during assembly. Adult assembly required.

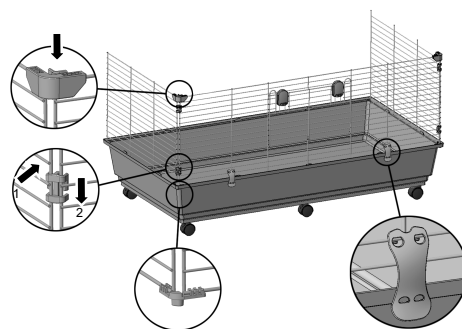

Step 1

Assemble the wheels to the bottom of the plastic base.

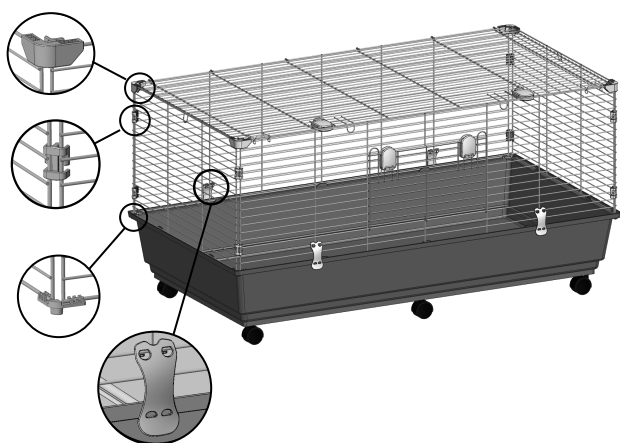

Step 2

Assemble the front and side panels to the base using the top, center, and bottom clips as shown. Ensure that vertical wires on the panels face inward, and the front doors open outward. Connect the front panel to the base with habitat clips.

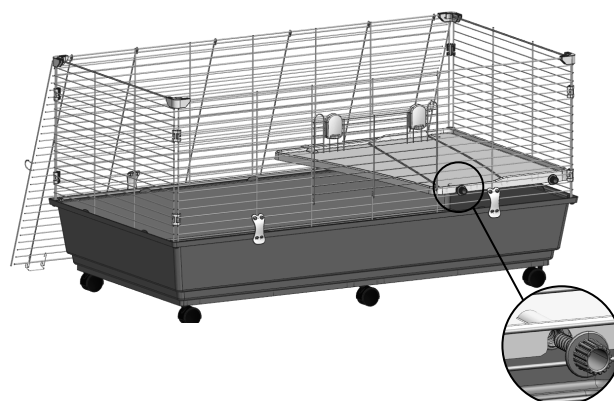

Step 3

Assemble the top and back panels to the side panels using the top, center, and bottom clips as shown in Step 2. Ensure the vertical wires on panels face inward, and the top door is positioned to open upward. Connect the back panel to the base with the habitat clips.

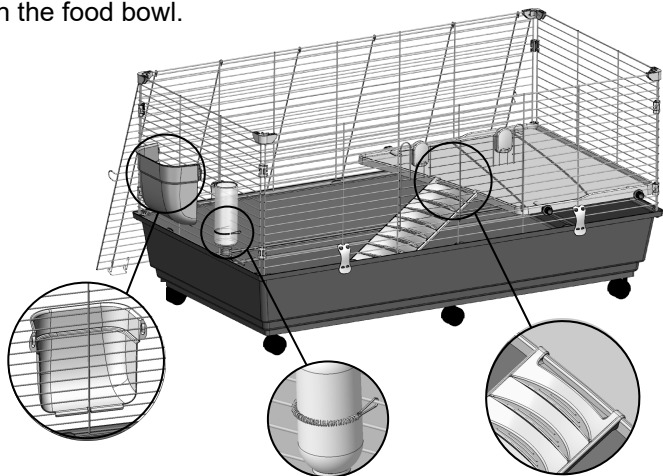

Step 4

Open the top panel and position the shelf vertically along the second wire spacing from the base. Use the screws to fix in position as shown.

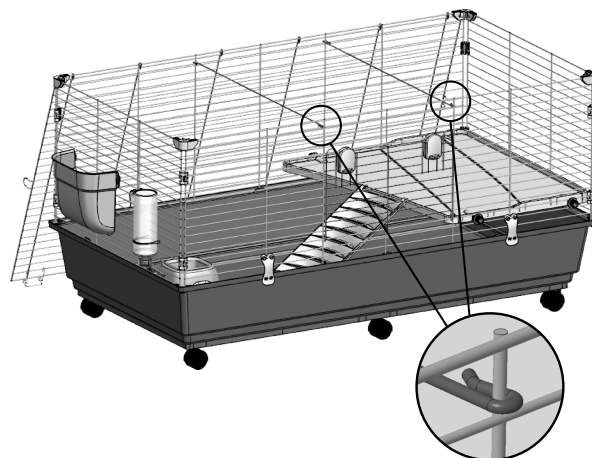

Step 5

Hook the ramp over the shelf where desired. Attach both the hay feeder and water bottle in suitable positions. Place in the food bowl.

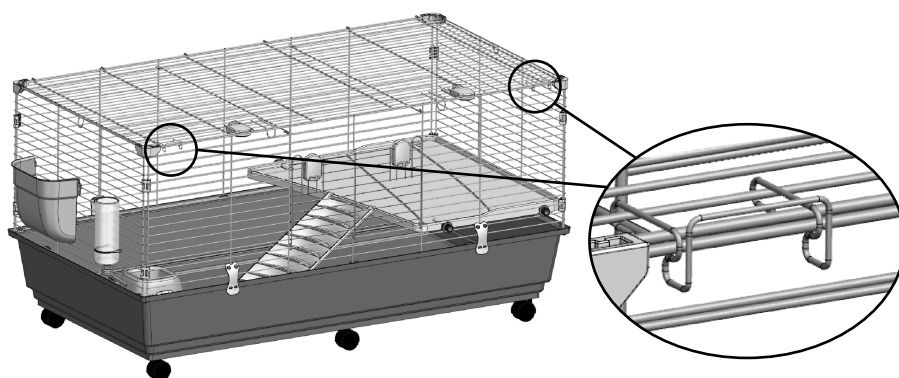

Step 6

Hook the wire rods front to back within the top space around the second vertical wire from each side as shown.

Step 7

When closing the top wire door, use the built-in wire corner latches to secure the door corners.

CAUTION: Always select the appropriate size and type of habitat for your pet. Be sure to observe your pet's behavior with the new habitat. Replace the habitat if it becomes damaged. Contains small parts, keep out of reach of children.

CARE INSTRUCTIONS: Wipe with a damp cloth and mild, pet-safe cleaner. Allow to air dry. Do not expose to direct sunlight for extended periods of time.

Care Tip: Your pet needs a constant supply of food and water as well as occasional treats. Provide your pet with fresh water and food daily. When refilling the water bottle, remove from holder and unscrew cap. Be sure to fill completely with cool, clean water and replace the cap. (A few initial drips are normal while the vacuum forms so the bottle will perform properly.)
