

Rubbermaid®

Description	Assembly Letter	Quantity	Required Tools
Left Floor	A	1	Safety Glasses
Left Side Panel	C	1	
Right Side Panel	D	1	Rubber Mallet
Left Back Panel	E	1	
Right Door Panel	F	1	Phillips Screw Driver
Right Back Panel	G	1	
Left Front Panel	H	1	Liquid Soap
Right Front Panel	J	1	
Left Door Panel	K	1	(2) Step Stools/Stepladders
Gable	M	2	
Left Roof Panel	N	1	
Right Roof Panel	P	1	
Wall Connector	Q	4	
Ridge Beam	R	1	
Right Floor	U	1	
Lock Hasp	X	1	
#14 x 1.0" Combo Pan Head Screw	AA	24	
1/4-20 x 0.5" Combo Round Head Bolt	BB	2	
1/4-20 Flat Washer	CC	2	
1/4-Hex Nut	DD	2	
Roof Pin	EE	4

BIG MAX 7' x 3'6" RESIN STORAGE BUILDING ASSEMBLY

Pre-Assembly:

- Review the parts list and make sure that no parts are missing.
- Level the area where the shed will be located.
- Areas of "fill dirt" should be tamped/compacted to prevent settling/sinking.
- If a foundation is desired, it should be constructed before assembly.

NOTE:

To simplify assembly and to ensure proper engagement of all components, apply a mild detergent to dovetail and snap fits before assembling.

Two Person Assembly

1

Level construction site before beginning assembly of shed. A foundation may be constructed if desired.

2

Connect Left Floor (A) to Right Floor (U), install Screws (AA) 4 places.

Caution: When installing screws do not overtighten.

OPTIONAL STEP:

If desired, recessed anchor locations (4 places) can be used to anchor the shed floor to a foundation.

3

Using a screwdriver, punch out the screw holes on the top of Left Side Panel (C) 2 Places.
Connect Left Side Panel (C) into Left Floor (A).

4

Lubricate dovetails on Left Front Panel (H) 4 places with liquid soap. Connect Left Front Panel (H) into dovetails of Left Side Panel (C), engage snaps on bottom of Left Front Panel (H) into Left Floor (A).

5

Lubricate dovetails on Left Back Panel (E) 4 places with liquid soap. Connect Left Back Panel (E) into dovetails of Left Side Panel (C), engage snaps on bottom of Left Back Panel (E) into Left Floor (A).

6

Repeat Steps 3–5 to assemble right side of shed. Continue to Step 7.

7

Engage lap joint between Left Back Panel (E) and Right Back Panel (G) and install Wall Connectors (Q) 4 places.

8

Install Gable (M) onto top of back wall engaging the 2 dovetails and snaps on the back panel and the dovetail on the side panel on both the left and right sides of the shed.

9

Install Gable (M) onto top of front wall engaging the 2 dovetails on the front panel and the dovetail on the side panel on both the left and right sides of the shed. **DO NOT ENGAGE THE SNAPS.**

10

Install Left Door Panel (K) inserting the lower hinge pin into Left Floor (A) socket, lift the left end of the Gable (M) enough to insert the top hinge pin on Left Door Panel (K) into the Gable (M) socket.

11

Install Right Door Panel (F) inserting the lower hinge pin into Right Floor (U) socket, lift the right end of the Gable (M) enough to insert the top hinge pin on Right Door Panel (F) into the Gable (M) socket.

Install Lock Hasp (X) into back side of Right Door Panel (F). Engage Gable (M) snaps on front wall.

12

Place Ridge Beam (R) into cups at the top of each Gable (M).

13

Align slots in Ridge Beam (R) with holes in Gable (M) tabs, install Bolt (BB), Washer (CC), and Nut (DD) 1 place, **ONLY TIGHTEN NUT 'FINGER' TIGHT.**

14

Align slots in Ridge Beam (R) with holes in Gable (M) tabs, install Bolt (BB), Washer (CC), and Nut (DD) 1 place, **ONLY TIGHTEN NUT 'FINGER' TIGHT.**

15

Lubricate roof snaps on Gable (M) 8 places on each Gable (M). Raise the Left Roof Panel (N) onto the left side of the shed assembly, the arrows on the roof panel should face the inside of the shed and point towards the Ridge Beam (R).

16

Using (2) step stools (1 inside shed, 1 outside shed), lift the bottom of the roof panel above horizontal, guide the roof panel into the Ridge Beam (R), align both Gable (M) ribs with the channels in Left Roof Panel (N), engage Left Roof Panel (N) in Ridge Beam (R) by lowering the bottom of the roof panel onto the shed assembly (hold Ridge Beam (R) to prevent twisting).

17

Engage all snaps between the roof panel and gable, then roof panel and wall panel.

18

Repeat Steps 15–17 for right roof of shed.

19

Install Screws (AA) 16 places in Gable (M).

Caution: When installing screws do not overtighten.

20

While one person holds down the bottom of the roof, install screws (AA) 4 places in screw holes on the top of the Side Panels (C&D). Screws connect the Side Panels to the Roof Panels.

Caution: When installing screws do not overtighten.

21

Install Roof Pins (EE) 4 places connecting the Roof Panels to the Gables.

OPTIONAL STEP:

If desired, add wood to create a loft (wood not included).
