YUMbrella™

3-Wire Kit

Grab it and go. Whether you're fishing where only three hooks are allowed or for bass that see 5-wire rigs all day long, the YUMbrella 3-Wire Kit gives you the advantage. The YUMbrella 3-Wire is manufactured with the same stainless steel, heat-treated super-wire and includes the same tough hardware as the 5-wire version. And as a kit, it includes jigheads and swimbaits specifically designed and selected for multi-lure rigs, making it easy to grab it and get on the water fast.

YUMbrella 3-Wire Kit includes the multi-lure rig in Tennessee Special color pattern, three pearl-colored 1/8-ounce roundhead jigs and three 4-inch pearl/silver flake Mud Minnows. The jighead has a tough 3/0 hook for sure hook-ups on slashing fish, and the Mud Minnows perfectly mimic the shape and swimming motion of a slender baitfish.

Whether it's for areas where only 3 hooks are allowed or as a more-subtle bait school presentation, the YUMbrella 3-Wire Kit lets anglers grab it and go catch fish.
