Product Care & Storage

Your new poolside game has been made with many non-corrosive quality materials and should provide you with many years of enjoyment with proper care. However, sun and chemically treated pool water (chlorine) are natural enemies of many synthetic materials. For maximum life of your game:

1. Do not leave the game ball floating around the pool when not in use.
2. After use, wash away the chlorine pool water with plain water using a garden hose.
3. When not in use, store your game in a dry place away from direct sunlight and chemicals.

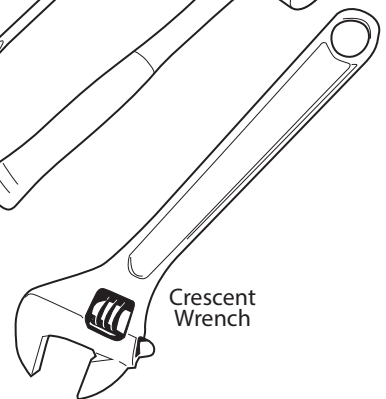

Recommended Tools

Flat-head
Screwdriver

Rubber
Mallet

Crescent
Wrench

1

Basketball Game

Step 1

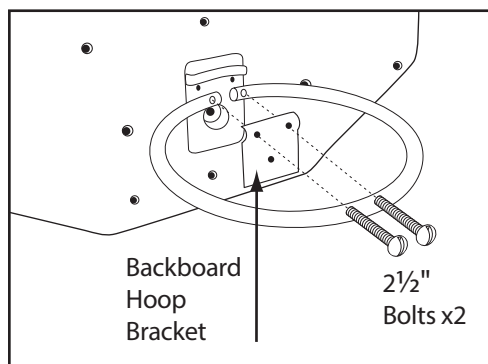

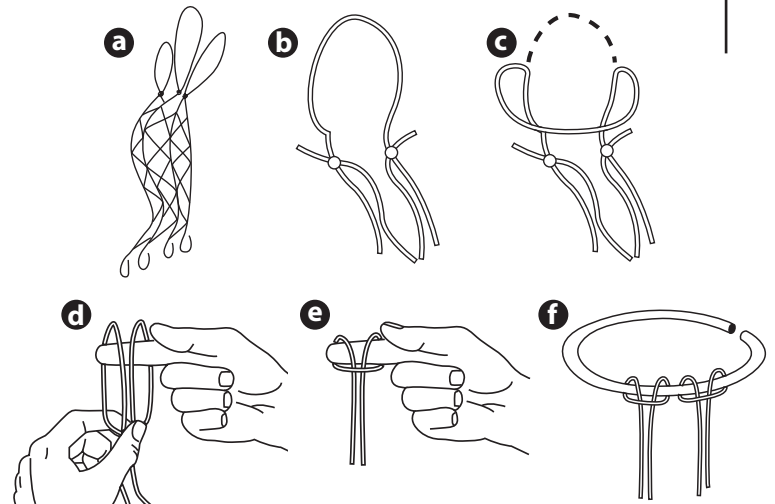

- Fill the Base with water or sand and cover opening with Cap.

Step 2

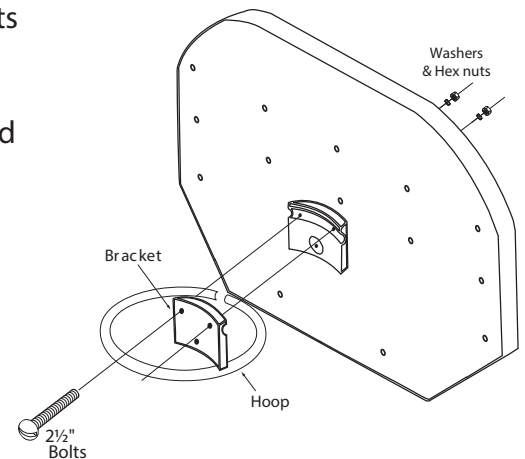

Thread Net on PVC Hoop.

- This is the net right out of the package. You will be working with the longer looped end.
- This is a close-up of one loop.
- Fold the loop toward you, creating two loops.
- Insert your finger through the two loops.
- Release the thumb holding the loop in place and pull on the two middle strings. The loop should slide up and catch your fingers.
- Take the loop from your finger and slide onto the basketball hoop. Continue this process with each loop until all loops are on the hoop.

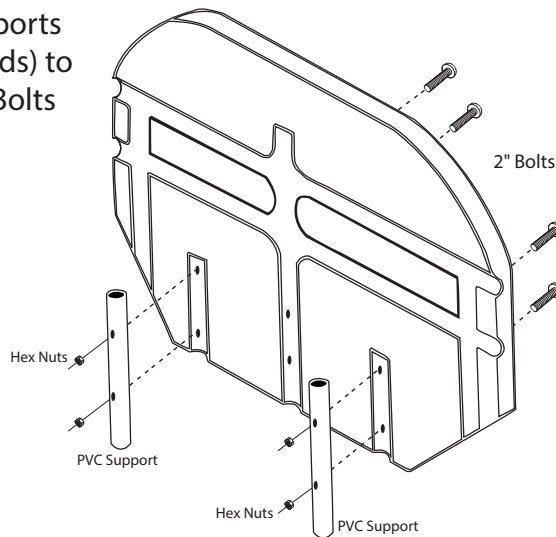

Step 3

- Attach the Hoop to the Backboard by inserting (2) 2 1/2" Bolts through the Hoop Bracket, Hoop and Backboard as pictured and secure with Washers and Hex Nuts.

Step 4

- Attach two PVC Upright Supports (with Caps on the bottom ends) to the Backboard using four 2" Bolts and secure with Hex Nuts

Step 5

- Undo the pre-threaded 2" Bolt and Hex Nut on the PVC U-Shaped Backboard Support (see Diagram "A") and thread the Bolt from the front of the backboard through the hole below the Backboard Hoop Bracket into the lowest hole of the PVC U-Shaped Backboard Support. (see Diagram "B"). Attach one 3 1/4" Bolt through the only remaining hole of the Backboard Hoop Bracket into the upper hole of the PVC U-Shaped Backboard Support. Secure and tighten both Bolts with Hex Nuts. Insert U-Shaped Support into Base (see Diagram "C").

Diagram B

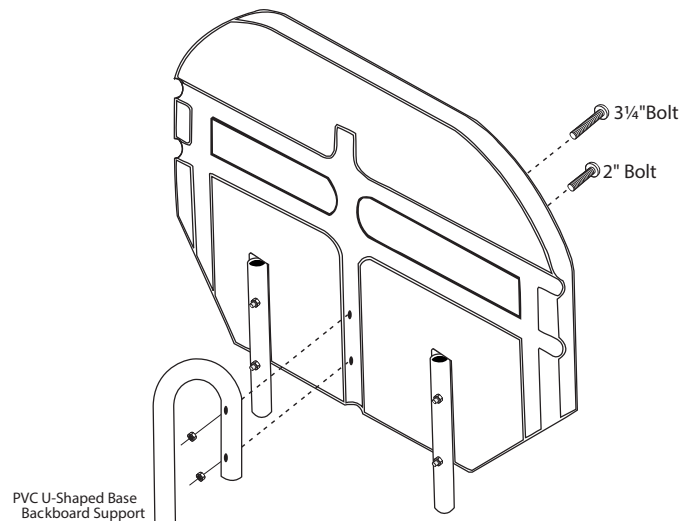

Diagram C

Step 6

- Use Ball Needle and hand pump (not included) to inflate the Pro Style Ball or the Water Sport Ball. Do not over-inflate

Step 7

- Place NO SLAM DUNK label on front of Base

NO SLAM
DUNK label

Volleyball Game

Step 1

- Fill both bases with water or sand and cover openings with caps.

Step 2

- Insert the PVC Support into the Base **AT AN ANGLE**. (Diagram A) While pushing Support into the Base, keep it pulled back a bit to make sure that Support **CLEAR**s the metal washer that is built into the Base at the opening (Diagram B). Use a Rubber Mallet if necessary.
- Once the Support is inserted into the Base, secure through the 2nd hole from the bottom with one 2½" Bolt (Diagram C).

DIAGRAM A

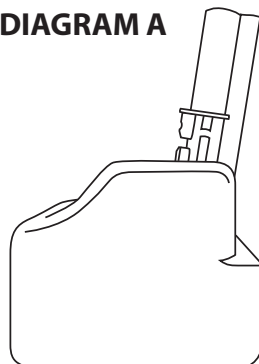

DIAGRAM B

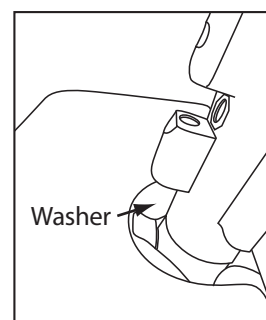

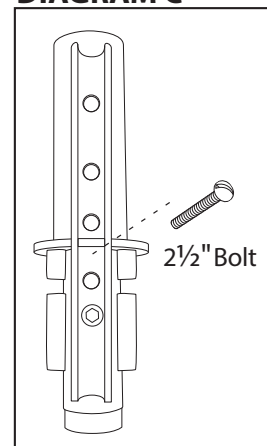

DIAGRAM C

Step 3

- Insert Pole into Base Connector. (Tap with rubber mallet if needed and secure with one 2" bolt in upper hole of the Base Connector and secure with Hex Nut. Repeat for second Base.

Step 4

- Place End Caps on top of Poles

Step 5

- Insert Corner Ties of Net through holes shown and secure to each Pole. The Net can be shortened by rolling on Poles or lengthened by extending the Corner Ties. (for extra stability secure rope ends beyond Bases with tent stakes [not included])
