TRiMFOOT Co., LLC
Child Sizing Guide

Proper fitting footwear is essential to healthy foot development. Determining the correct fit and size corresponds directly to your baby's developmental stage and activity level. Use this convenient foot size guide and beneficial information as a reference tool to help insure the best fit when purchasing footwear.

Babies feet grow quickly. As a general rule, when to measure feet:

Under 1 year - every month
1 to 2 years - every two months
2 to 3 years - every three months

CRIB STAGE

Crib Stage shoes are for newborn babies up to 12 months old. The materials are lightweight, comfortable and breathable for tender feet.

00+ - Preemie up to 6 lbs.
0 - Newborn
1 - 6 weeks to 3 months
2 - 3 to 6 months
3+ - 6 to 9 months
+available in select styles

CRAWLING STAGE

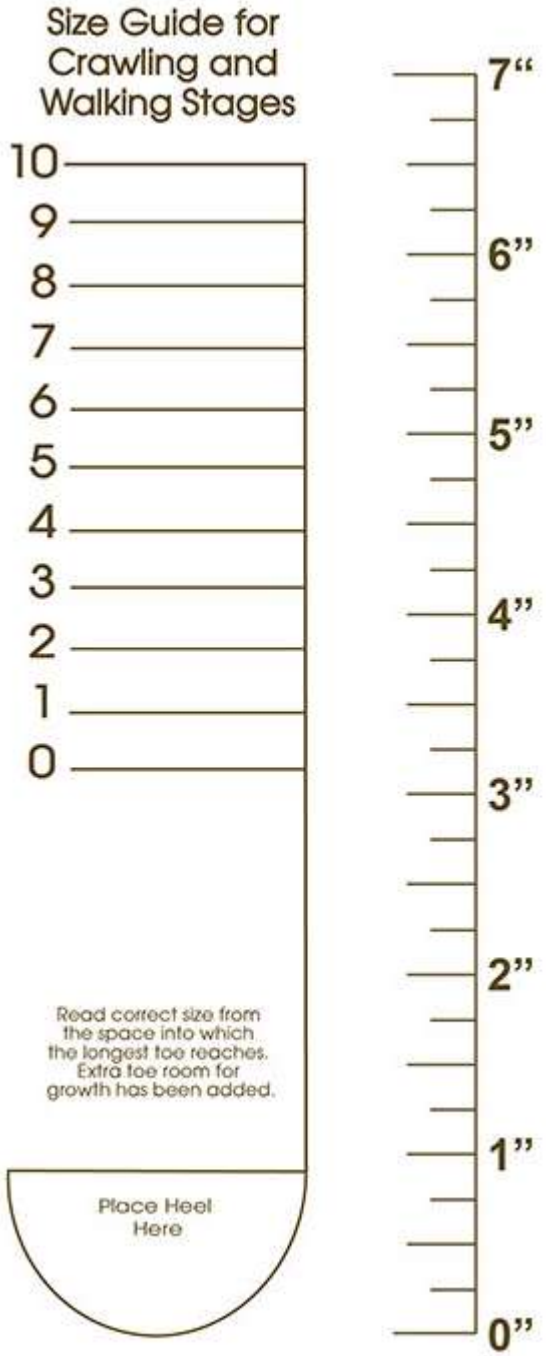

Crawling Stage shoes are designed for the babies that are becoming active, but the shoes have soft soles so they don't become too heavy for the little ones' ankles.

0 - Up to 2 months
1 - 2 to 3 months
2 - 3 to 6 months
3 - 6 to 9 months
4+ - 9 to 12 months
+available in select styles

WALKING STAGE

Walking Stage shoes have true outsoles. The shoes are constructed to give support and stability, but yet remain flexible for comfort. Other comfort features, such as padded collars and insoles, are included.

2 - 3 to 6 months
3 - 6 to 9 months
4 - 9 to 12 months
5 - 12 to 18 months
6 - 18 to 24 months
7 - 24 to 30 months
8 - 30 to 36 months
9 - 36 to 42 months
10 - 42 to 48 months
