SIZE CHART Specifications

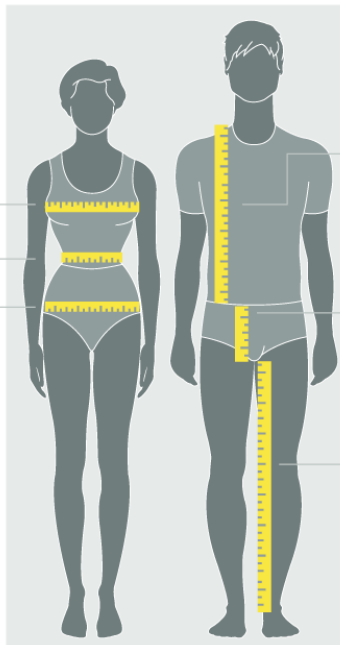

The measurements shown on the charts are body measurements in inches. Locate your body measurements on the size chart to determine which size you should purchase.

To get an accurate body measurement, always keep the measuring tape parallel to the floor. Wear undergarments only; do not measure over clothing.

Once you know your body measurements, consult the Size Chart and Fit Tips on the product specs to determine which size you should purchase.

Body Measurements:

- Chest**
Measure around the fullest part of your chest.
- Waist**
Bend to one side to find the natural crease of your waist; measure across at this point.
- Hip**
Standing with feet together, measure around the fullest part of your hips and rear.

Clothing Measurements:

- Length**
Measure to the garment's highest point of the shoulder to the hem.
- Rise**
Measure from the bottom of the crotch seam to the top of your waist.
- Inseam**
Measure from the bottom of the crotch seam to the bottom of the hem along the inside seam.
