

GOLF GLOVE SIZING

Golf gloves are designed to fit like a second skin, tightly around your hand and fingers.

To determine your golf glove size, measure the circumference of your glove hand around the knuckles. If you're right-handed, measure your left hand. If you're left-handed, measure your right hand.

Using the circumference measurement of your hand, find the correct golf glove size in the following chart . Because golf gloves typically require a snug fit, choose the smaller size if you're measurement falls between two sizes.
