Assembly:

- Remove all components from the package and confirm all parts are included. Please reference the frame assembly diagram below (see figure 1):
- Place the S-Hook Bungees on the following tubes: 1, 2, 3, 4, 5, 6, 8, 9
- Place the 4 Plastic Blocks on the following tubes: 8, 9, 10, 11
- Attach all of the tubes together to assemble the frame as pictured in the assembly drawing. During the frame assembly, make sure to attach the height adjusters in between tubes 10 & 7 and 11 & 7. Twist the Height Adjusters to tighten and loosen. Measurement lines have been provided on the back of tubes 7 so the pitch return can be adjusted evenly on both sides.

(Figure 1)

To attach the net:

Spread out the net and find the red tabs. Red tabs indicate the corners. Start by attaching all of the corners of the net to the frame with the bungees and then proceed with the sides of the net until all bungees are secure.

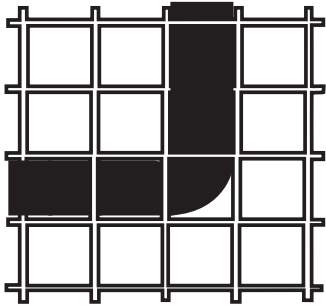

Attach the Strike Zone Ribbon by weaving through the net and connecting the Velcro at the end. (Figure 2)

Use the Ground Stakes for extra stability when needed.

WARNING:

Use extreme caution when assembling the net to the frame. The bungees will be under extreme tension and must be attached carefully. Adult assembly is strongly recommended.
