ethos HD

H2O XPRESS.

IM8, 40-million modulus graphite blank provides strength and sensitivity.

Cross-directional fibers increase blank strength by reducing torque.

Top-grade, split-grip cork handles improve balance and provide a long lasting, comfortable grip.

Fuji® ACS reel seats on casting models provide great feel and offer exposed blanks for increased sensitivity.

Fuji® Alconite regular and semi-micro guides.

THE PERFECT MATCH

THE METTLE HD REEL
