| 8 | 7.5 | 25 | 150 |
| 8.5 | 8 | 25.5 | 155 |
| 9 | 8.5 | 26 | |
| 9.5 | | 26.5 | 160 |
| 10 | | 27 | 165 |

how to get the right fit

Avoid a fit that is too big, unless shoes will not be worn until the child's foot grows into them. Poor-fitting shoes can damage feet.

It is not uncommon for a child to have one foot larger than the other. Fit to the larger foot.

If between sizes, we recommend you order 1/2 size up.
