MONOCULAR

PRODUCT MANUAL

25 mm Models

The Vortex® Solo® 25 mm Monocular

The 25 mm Solo® is compact, easy to handle, and designed for a lifetime of enjoyment. Built to withstand use in just about any field condition, o-ring seals and nitrogen purging make the Solo a fully waterproof, internally fogproof monocular.

Caution

Monoculars are not intended for looking at the sun or other intense light sources. Such viewing could damage the retina and cornea of your eyes—even to the point of causing blindness.

PREPARING THE SOLO FOR USE

Focus the Solo

The focus wheel is found on the eyepiece of the Solo. Simply turn the wheel until your subject comes crisply into view. Turn clockwise to focus on more distance objects, counter-clockwise to focus on objects that are nearer.

Focus Wheel

The Case

The soft case of the Solo slips off for an easy carry in the field and provides protection for the monocular when not in use.

Attach the Lanyard

Attach the lanyard to the Solo monocular in three simple steps:

1. Push the loop end of the strap through the lanyard attachment point on the monocular.

2. Take the opposite end of the lanyard and put it through the loop.

3. Cinch the loop tight.

LENS CARE

Follow this two-step process to gently clean the exterior lenses of your binocular.

1. Blow away any dust or grit before wiping the lens. Use a can of pressurized air, soft camel hair brush, or acrylic optical brush.
2. Gently remove smudges, fingerprints, and eyelash oil from the lens. Use a small amount of water or your breath to moisten the lens then wipe away smudges with a clean lens cloth. Isopropyl alcohol can help remove marks like fingerprints.

Note: Avoid over-scrubbing lenses and always use a clean lens cloth—replace the dirty lens cloth with a new, clean lens cloth. Please do not use facial tissue, heavy cotton, or flannel cloth on the lenses because these materials can scratch the lens surface.

THE VIP WARRANTY

We build optics based on our commitment to your absolute satisfaction. That's why Vortex products are unconditionally guaranteed and we make this Very Important Promise to you—a Very Important Person.

Rest assured that in the event your Solo becomes damaged or is defective, Vortex Optics will repair or replace the monocular at no charge to you. If we cannot repair your product, we will replace it with a product in perfect working order and equal or better physical condition. E-mail service@vortexoptics.com or call us at 800-426-0048 for prompt, professional, and friendly service.
