

# SCAVENGER HUNT

## **BEFORE YOU GET STARTED:**

Make sure you have a pen and paper to record your scores.

## **RULES FOR PLAY:**

The first player begins by picking a card from the pile and then spinning the wheel. Adjectives are listed on the wheel and objects on the cards, so the player combines the two to determine what item they need to search for (for example: a yellow sock or a shiny rock). There are two objects on each card. The player selects which to find. Then the sand timer is turned and the player has two minutes to find an item in the house or backyard that best fits that description.

One point will be awarded if the item chosen by the player matches either the adjective or the object, and three points will be awarded if the item matches both.

The next player takes their turn and play continues.

## **WINNING THE GAME:**

The first player to reach fifteen points wins.

**Suitable for age 6+ years**
