SMITH RAIL SIZE FINDER

Instructions:

- 1- Open this PDF in ADOBE Reader, prepare your printer, then click on print.
- 2- Locate page scale and select NONE so the size finder will print correctly.
- 3- Click OK to print your size finder.
- 4- Verify it printed correctly by measuring that the scale bar is exactly 6" wide.
If its not exactly 6" wide the finder will not be usable.
- 5- Cut out the verified size finder.
- 6- With your thumb on the arrow, wrap the size finder around your rail.
- 7- The arrow line will align very closely with one size line.
Note: OD=Outside Diameter. Pipe sizes are smaller than OD.
- 8- Order Smith rod holder models that will fit your size rail.

Happy Fishing !
