

## BATTING GLOVE SIZING CHART

The most accurate way to determine the correct size batting gloves is to try on a pair. If this isn't possible, follow the steps below, and reference the chart provided to select your size.

1) Using either a ruler or flexible cloth measuring tape, measure the distance from the tip of your middle finger to the base of your palm.

2) Use that measurement to find your batting glove size on the chart below. If your measurement falls between two sizes, choose the smaller size batting glove.
