FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

新增

IC WARNING

This device contains licence-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment meets the exemption from the routine evaluation limits in section 2.5 of RSS-102. It should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

Limited Warranty

SME Spot Shot WIFI Scope Cameras are covered by a One Year Limited Warranty. This Warranty covers rangefinders with manufacture defects. Normal wear & tear as well as product abuse are not covered by the warranty.

This Warranty is valid only for the original owner of the WIFI Scope Camera purchased from an authorized retailer. Tampering with or altering the unit will void the warranty.

Any unauthorized service will void the warranty. Original sales receipt must be produced for any warranty service and a Return Authorization (RA) number must be obtained from customer service at **877-269-8490** prior to returning the product.

Thank you for purchasing the
WIFI Scope Camera

Included:

WIFI Scope Camera

Carry Pouch

1m Micro USB Cable

Spotting Scope sold separately

Attaching to Spotting Scope

Make sure grips inside rotating chucks are full open.

Rotate lower rotating chuck counter-clockwise (when viewing from bottom) to open grips.

Carefully place WIFI Scope camera over eyepiece of spotting scope.

(Spot Shot WIFI Scope Camera will fit eyepieces with diameters range of 1" – 2.25")

Secure Camera by rotating chuck counter-clockwise (when viewing from top) to close grips.

DO NOT OVERTIGHTEN

If your camera is not straight, rotate main body. Use power button as reference. Camera is straight when power button logo is centered on top.

Note all focus will come from the spotting scope. Use scope as you normally would

Download the SME SpotShot APP

- 1) Download the SME Spot Shot APP from the Apple App Store or Google Play Store
- 2) Power on the WIFI Scope Camera
- 3) Connect to the SpotShot WIFI network as you would any other WIFI network. Go to the WiFi settings on your mobile device and select the Spot Shot Wifi.
- 4) Launch the App and select Connect
- 5) Make sure you are connecting to correct network. If correct, select Proceed. If not, select Settings to change
