

THE RITZ-CARLTON

BALI

The Community Footprints logo, a heart formed by footprints, symbolizes the commitment of our Ladies and Gentlemen to local causes and the social and environmental strategy embedded into our service values, business operations and long-range plan.

At the heart of our efforts are three causes dear to our hearts: the well-being of children, environmental responsibility and hunger and poverty relief. Our Ladies and Gentlemen contribute their time, energy and skills to these causes through activities including visiting with elders at the Wana Seraya Foundation, redecorating classrooms at Sawangan Kindergarten, participating in community clean-up campaigns and working with meeting attendees through the Shoes to School program, one of the hotel's Impact Experiences.

We are proud to incorporate these activities and the spirit of the program into our daily business and operations, and even more proud that our commitment to expanded global citizenship is demonstrated by the actions of our Ladies and Gentlemen.
