**MANDAPA, A RITZ-CARLTON ANNOUNCES PARTNERSHIP WITH BESPOKE FRENCH SKINCARE BRAND BIOLOGIQUE RECHERCHE IN MAY 2019**  
*Mandapa Spa Offers World Class Facial Experience with Nature Surroundings*

**UBUD, BALI** – April 5, 2019 – Situated in Ubud, a place for renowned spiritual and physical healing, [Mandapa, a Ritz-Carlton Reserve](#) further reinforces its reputation as an award-winning wellness destination with the unveiling of a new facial menu and product partnership with [Biologique Recherche](#). The enhanced facial menu at [Mandapa Spa](#) focuses on results-oriented, natural treatments while continuing to draw inspiration from ancient Balinese traditions and the resort’s surroundings along the serene banks of the Ayung River.

Biologique Recherche is a bespoke French skincare brand headquartered in the prestigious 32 Avenue des Champs-Élysées in Paris. The Biologique Recherche Methodology is based on nearly forty years of experience in developing the most powerful and effective skincare products in the beauty industry. Formulated by a team of medical doctors, and created by biologist Yvan Allouche; authenticity and harmony has always been the spirit and essence behind all Biologique Recherche products. With a clinical approach to skincare using intentionally pure, concentrated, raw, 50% or more active ingredients, Biologique Recherche is truly a unique and rare luxury skincare line without the frills.

“Simply put, our skin can be compared to a house. If the roof is built badly and can’t guarantee protection against external elements and aggressions, everything inside becomes stressed and vulnerable” said Dr. Phillipe Allouche, Head of Creation, Research and Innovation.

While the launch date of the new facial menu at Mandapa Spa is a month away, its therapists have been trained rigorously by the company to deliver the Biologique Recherche experience in a location not often associated with the lab-like aesthetic of the brand. “The product line partnership with Biologique Recherche emphasizes our commitment to luxury skincare, providing guests top of the top experience using one of the world’s leading products,” said Dwi Santini, Director at Mandapa Spa.

Featuring bespoke facial treatments designed for purifying, anti-ageing, brightening and balancing complexion, highlights from the Biologique Recherche facial menu include:

- **Ultimate Radiance Skin** – Intensively hydrate all skin types and smooth sensitive skin. Rich in Omega 3, Hyaluronic Acid and silk proteins to deeply hydrate, leaving the skin supple and glowing. This treatment is a moisturizing booster that soothes and unifies complexion.  
*Ultimate Radiance Skin is 90 minutes and is priced at IDR 3,100,000 or USD 220.00*
- **Essential Lifting Facial** – This treatment is specially designed for mature skin. It accelerates cell renewal, restructure, firm, hydrate and protect against exterior aggressions. Using the Jacquet-Leroy massage technique to stimulate elastin and collagen for lifting effect and defining facial contours.  
*Essential Lifting Facial is 90 minutes and is priced at IDR 3,100,000 or USD 220.00*

Biologique Recherche is available today in more than 70 countries in Western Europe, Eastern Europe, the Middle East, Asia, America and Africa, and partners exclusively with the most passionate, educated and dedicated skin care professionals.

Offering an intimate riverfront setting where the sound of flowing water lulls guests into a state of pure bliss, Mandapa Spa combines a peaceful locale and indigenous practices to provide a secluded temple for meditation, deep relaxation, food for the soul, and an escape to another world. With eight treatment rooms, four dedicated couple's treatment rooms, a 24-hour state-of-the-art fitness center, yoga studio, and vitality pool, as well as saunas and relaxation areas, Mandapa Spa provides a secluded space for meditation, profound relaxation, and the chance to tune into oneself and retreat to a state of peace.
