*New Mediterranean-inspired Restaurant Concept Santé to debut
Fall 2021*

*The dining destination arriving at The Ritz-Carlton, Pentagon City will bring the elegance and
flavors of the coastal region to Arlington with inspired day to night offerings*

Arlington, Virginia (August 26, 2021) - Today, Santé, a new Mediterranean-inspired restaurant concept, announces its upcoming arrival in Northern Virginia. Slated to open in Fall 2021, the forthcoming culinary destination will call The Ritz-Carlton, Pentagon City home, further establishing the property as an inspired neighborhood gathering place.

An expression often used to toast to health and happiness, Santé represents this sentiment and the Mediterranean way of life, while also celebrating the moment and those that you're with. The concept brings the ease and elegance of the coastline region to life in the Arlington neighborhood, offering a sophisticated, yet approachable atmosphere.

"Santé will be a destination in the Arlington area, whether you're looking for an after work drink with friends, or a spot for an intimate dinner," said Ritz-Carlton, Pentagon City General Manager, Matthew Felix. "We're creating an atmosphere that will offer something unique for those who work and live in the neighborhood, along with visitors and hotel guests."

Santé will invite guests to savor the flavors of the Mediterranean region through shareable dishes like the Grilled Oysters, and innovative mains including the Roasted Whole Sea Bream alongside a collection of craft beer, distinctive wine and handcrafted cocktails. Helmed by Executive Chef, Phil Skerman, the restaurant will offer breakfast, lunch, afternoon tea, dinner, and an evening experience in the fireside lounge. With an emphasis on the present moment, Santé will offer an exceptional culinary experience and an ambiance that transports guests to the seaside.

Designed in partnership with designONE studio, Santé's main dining room will feature seating for 64 people, with additional bar and lounge area seating, as well as a private dining room for groups up to 48. The space is accented with warm wood tones and varying coastal blues.
