CLASSIC DESIGNS

The Finestra® Wood Hardware collection offers the perfect combination of classic finial designs in 2" and 1 3/8" diameters and furniture-quality finishes that coordinate seamlessly with decorative elements throughout the home.

Style meets function by pairing our finials with our variety of traverse solutions, including Automated or Manual Baton and Cord Draw systems.

Look for systems with no physical operating cords, ensuring the ones we care about most are protected and safe.

FEATURES

2-WAY RF COMMUNICATION

Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.

ADJUSTABLE SPEED

Choose from three options to customize the open / close speed of the drapery treatment.

PREFERRED OPEN / CLOSE LIMIT SETTINGS

Electronic "autoset" limits accurately program preferred open and close limit settings.

FAVORITE POSITION

Allows a most used or favorite position to be set between open and close limit settings.

OBSTRUCTION DETECTION

If the drapery motion is obstructed while the motor is running, the motor stops automatically to prevent damage.

MANUAL OVERRIDE

Permits the drapery to be adjusted manually without the use of a remote or in the event of a power outage.

QUIET OPERATION

Powerful, smooth and quiet operation suitable for both residential and commercial environments.

CONTROLS

Opt for Remote Controls or Wall Switches. Handheld Remotes offer modern features, including LCD displays, individual, group and all control and precision leveling, giving users complete control. Wall Switches come in both cut in and flush mount configurations and provide a sensible control option for room and whole home control.
