

Roman Shade Ribs & Rib Splices

RSR1 - $\frac{3}{16}$ " Dia., Off-White, More Rigid

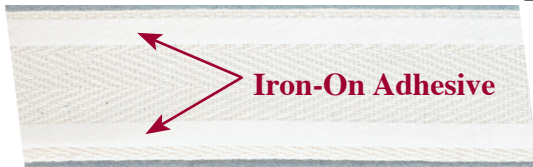

RSR2 - $\frac{3}{16}$ " Dia., Clear, More Flexible

RSR4 - $\frac{1}{4}$ " Dia., Off-White, Most Rigid

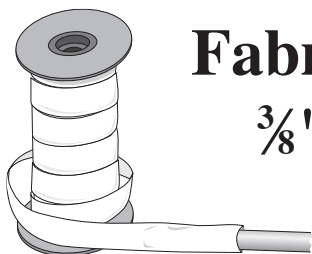

- Rigid plastic. Supports folds/pleats on Roman/Hobbled Shades when placed in a small tuck or pocket on the back or front of the shade.
- Available in $\frac{3}{16}$ " or $\frac{1}{4}$ " Diameter in 5' or 8' lengths. Center hole allows splicing of pieces to accommodate wider shades and eliminates scrap.
- Also used on Hobbled Shades, at the ring stitches, to help keep the folds straight.
- Clear Ribs are designed for use with sheer fabrics.

Iron-On Roman Rib Tape

- A **No-Sew** way of attaching our Roman Shade Ribs to the back of a Roman Shade.
- Twill Tape with adhesive on both edges of one side for ironing/bonding to the Roman Shade.
- This tape makes it very easy to add rib support to pre-existing shades.
- Colors: White (RSR7/W) and Natural (RSR7/N).
- 1" wide, 72 yds/roll.

Fabric Tubing for $\frac{3}{8}$ " Solid Rod

Rowley
DECORATING SUPPLIES & MORE
800-343-4542

- Polyester tubing is mildew and moisture resistant.
- Fits $\frac{3}{8}$ " solid rod used as weight bar in bottom of fabric shades.
- Can be used to prevent gathered shades from spreading apart at the bottom.
- Colors: White (RSR5) or Natural (RSR6).
- Available in 25 or 100 yard rolls.
