Features

2-Way RF Communication

Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.

Adjustable Speed

Choose from three options to customize the open / close speed of the drapery treatment.

Preferred Open / Close Limit Settings

Electronic "autoset" limits accurately program preferred open and close limit settings.

Favorite Position

Allows a most used or favorite position to be set between open and close limit settings.

Obstruction Detection

If the drapery motion is obstructed while the motor is running, the motor stops automatically to prevent damage.

Manual Override

Permits the drapery to be adjusted manually without the use of a remote or in the event of a power outage.

Quiet Operation

Powerful, smooth and quiet operation suitable for both residential & commercial environments.

How To Add Your Transitional Cuff / Finial Adapter »

1 Select your Cuff style and finish - Mix & Match for the ultimate customization.

2 Place Cuff onto metal traverse and tighten set screw with Allen Wrench.

3 Install finials by screwing into the Cuff / Finial Adapter.
