Important Safety Information

- *Please read all instructions carefully before assembling this product.*
- *Where applicable, and for your safety, assembly by an adult is strongly recommended.*
- *Use only vendor-supplied hardware to assemble this item. Using unauthorized hardware could jeopardize the structural integrity of the item.*
- *Hardware may loosen overtime. Periodically check that all connections are tight.*

Before Assembly

- *Remove all parts and hardware from the box. Place all items on a carpeted or scratch-free work surface, as this will avoid damaging parts during assembly.*
- *The shipping box can provide an ideal work surface if none is available.*
- *Use the components and hardware lists below to identify, inventory and separate each of the hardware and components included.*
- *To avoid accidentally discarding small components or hardware, do not dispose of any packaging or contents of the shipping carton until assembly is complete.*
- **DO NOT USE** power tools unless it is explicitly identified in this manual as required for use during assembly. Power tools can damage the fasteners, hardware and/or components.
- *Do not fully tighten all fasteners / screws until all parts are in place. Failure to follow these instructions may cause the fasteners / screws to misalign during assembly*

Care & Use

- *Use a soft, clean cloth that will not scratch the surface when cleaning.*

Tilting / Leaning	Surface not level	Place it on a level floor
Rickety	Bolt not tight enough	Tighten all bolts / screw

Care & Use Instruction

Teak wood, when left bare and unsanded, will naturally fade to a silver-gray color. This silver-gray color transformation does not in any way affect the durability of the furniture.

To maintain the smooth finish and golden brown color of your teak furniture, you will need to sand the furniture regularly with 240 - 320 grit sandpaper. To prolong the period of time needed between sanding, teak oil may also be applied.

If you choose to apply teak oil, apply every 6 months, or follow the teak oil container directions. Again, if you choose to maintain the smooth brown finish of your teak furniture, this method requires some regular maintenance, such as sanding and reapplication of teak oil. Teak oil, along with sanding, will help maintain the golden brown color.

Staining :

Please note, once you stain your teak, it will not return to the natural golden brown or weathered silver-gray color without sanding off the stain. Staining is intended to be permanent. If you choose to stain your furniture after it has turned silver-gray, you must first sand it before applying the stain.
