# AVANTGARDE

## INDOOR/OUTDOOR FABRIC COLLECTION

Drawing inspiration from the "Avant-garde" art movement, we've crafted an artistic and genuinely avant-garde ambiance marked by aesthetic innovation and elegance that mirrors a period of immense creativity and forward thinking. In this collection, we honor and extol an expression of intrinsic meaning and comfort, using arts and crafts with a daring play of color and expressive motifs.

Contemporary avant-garde, beyond its intricate intellectual concepts, challenges prevailing cultural values through both form and function. Vanguardism has evolved beyond being solely a cultural phenomenon; it now extends into a non-conformist lifestyle, stimulating what humans yearn for: a raw expression of beauty and sustainability.
