# BICENTENARY

## FABRIC COLLECTION

In celebration of the company's long history and excellence, Christian Fischbacher created The Bicentenary Collection. Ornate designs that symbolize magic and opulence are brought together and celebrated, with references to the countless textile innovations achieved over the years by the famous Swiss textile house. Made from the finest materials using a wide range of both traditional and innovative manufacturing techniques, these designs are gleaming in gold, silver, and metallic shades, adding wondrous luster to interiors.
