FOLKLORE

FABRIC & TRIMMING

Since its inception in 1980, the eponymous Grey Watkins brand has celebrated nature in all its many forms. Folklore, a collection of fabric and trim, is The House of Scalamandré's latest offering under this beloved brand, which continues to explore this perennial theme through a diverse range of vibrant and down-to-earth designs. From colorful prints to nuanced, textural woven fabrics, the Folklore Collection evokes the magic of flowers, enlivening our senses and inspiring wonder. Fresh with a touch of whimsy, this mix of statement prints and multi-color go-withs is perfect for pattern play in any space. The palette ranges from budding pastels to saturated hues to evergreen neutrals. This exclusive group of twenty-four fabrics and eight trims can be used together or as complements to a scheme, to create a rich, tactile world that is as warm and welcoming as a late summer garden.

Van Gogh's Six Sunflowers, 1888
