CAMPDEN

FABRIC COLLECTION

The town and country seats of the 1st Viscount Campden, both named Campden House, provide inspiration for our eclectic collection of silks, wools, embroideries, prints and weaves. Teaming the cool and warm neutrals of the town with the lively blues, greens and pinks of the country, a blend of geometric and naturalistic styles provide endless possibilities for wall coverings, upholstery and soft furnishings. From sophisticated silks and wools for elegant town drawing rooms to vivacious embroideries and Suzani stripes for country kitchens and snugs, the Campden Collection combines heritage with inspiration. To add the perfect finishing touch, we have created a smart set of trims, along with playful drops and fringes.

From town elegance to country color, the Campden Collection weaves two luxurious worlds into one.
