COLLECTION 23

CONTRACT FABRICS

Lelièvre presents its latest collection of performance/contract textiles, Collection 23, drawn from the classic style and culture of the 19th century gentleman. Handsome fabrics range from timeless tweed, to equestrian-inspired small-scale wovens, to a botanical brocatelle evoking vintage vibes. Think modern man-cave, a cozy library, or the intimacy of a darkened smoking room.

Collection 23 perfectly embodies this heritage French brand's ability to marry high performance with luxurious quality and fashion-forward design. Relax in style like gentlemen and scholars do, with Collection 23.
