HIMALAYA

FABRIC COLLECTION

Lelièvre's Himalaya collection draws its inspiration from the high mountains of the Himalayas and travel. Within this collection, quality meets comfort, as weft-knitted wool and linen are combined with refined materials to create airy fabrics. The palette of natural shades, ranging from warm browns to terracottas, is enlightened with shimmering ochres and lustrous copper. The geometric woven patterns are inspired by the tall headdresses worn by Tibetan monks. The contrast of colors and materials add relief and character to the fabrics, recalling the endless expanse of mountainous landscapes.
