# COLLECTION 22

## CONTRACT FABRICS

The flutter of a bird's wings, lush vegetation and lustrous leaves. A thick and vibrant oasis. A house that you second guess is there. Wood. That spicy smell after rain has trickled over pebbles and bark. You see a flash of fur, or was it glazed feathers? A wild animal, perhaps? These wonderful snippets, visuals and memories emerge and inspire.

From this dream world, the Lelièvre studio created a brand new collection where the walls' patina merge and the various natural materials and vintage ceramics inspire the motifs that make up the stunning new collection. The oversized foliage fuses with the extraordinary jungle that surrounds it, its beautiful fibers inspiring the various colors and textures. This collection brings us down myriad paths, blending various geometric shapes, chromatic depth and soft materials.

While their imagination might run wild when designing, Maison Lelièvre's world-renowned expertise and savoir-faire can well and truly be seen in their new Collection 22. As an expert in the field, Lelièvre is fully committed to applying hotel industry standards to their collections by creating flame retardant and often washable fabrics. Indeed, the family-run company has mastered the weaving of flame retardant fibers, resulting in stunning textiles that not only are wonderful to the touch, but also boast a vibrancy and brilliance that is usually limited to residential fibers. The twelve fabrics that make up the Collection 22 are perfect for lobbies, restaurants, suites, reception areas and boutiques in stunning hotels around the world. Their timeless, elegant and harmonious designs, bold patterns and color schemes will also beautifully complement residential projects internationally.

# MARACAS

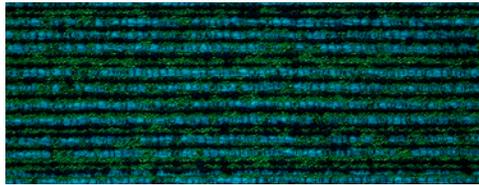

WIDTH:53.5" REPEAT V:8.75" H:7" - Straight - 100% Polyester Trevira CS - 35,000 Martindale

Maracas is a colorful combination of matte chenille weft with a fine lustrous thread. The black thread creates a bold contrast between the colors and finishes the fabric beautifully. The chenille thread softens the hand, while the range of natural and mineral shades offer both organic and ethnic influences. Suitable for upholstery, curtains and accessories with touches of bold color.

# PARURE FR

WIDTH:55" REPEAT V:3.25" H:2.25" - Straight - 100% Polyester FR - 35,000 Martindale

For some, Parure evokes Art Deco inspiration; for others, it evokes a sense of wildlife influence. Just as the light reflects from a bird's feathers or the scales of a fish, this fabric sparkles. Categorized somewhere between matte and shiny, this gentle geometric design opens up on a light background woven with fine threads. The chenille creates a luxurious raised effect on this elegant range of neutrals. Suitable for curtains, chairs and accessories.

# CERAMIC FR

WIDTH:55" REPEAT V:1.25" H:2" - Straight - 100% Polyester FR - 40,000 Martindale

Candy colors with a soft cotton feel, Ceramic is a focus on textured surfaces, showcasing the way light plays with this classic 3D fabric. An optical illusion which is strengthened by the choice of threads used, which creates a playful fabric. Available in twelve striking colors, it can be combined with plain materials, to brighten up a room. Alternatively, it can also be used alongside more spectacular patterns to create a statement. Suitable for curtains, chairs and accessories.
