BOREALIS

FABRIC COLLECTION

Inspired by the wild landscapes of Scandinavia, its designs conjure views of snow-covered forests, frozen lakes and deep, ice-locked fjords. Consisting of one tapestry, beautiful Jacquard fabrics, comfortable wool and linen loops and one fine wool twill, this contemporary collection of enveloping, soft and refined high-end fabrics alternately features figurative motifs, geometric patterns and textures.

Ranging from vibrant ochres, beiges, and warmer cognac browns, to cool celadon and indigo hues, the palette of natural colors beautifully complements the entire Borealis collection.
