CANYON

FABRIC COLLECTION

Our new collection's theme of contemporary surface studies is inspired by recent travels - a visit to a massive ancient crater with its varied, fascinating textures and vista-stretching panoramas. The textures of canyon walls and the reflections of open sky and mountains from rivers flowing beneath provide natural inspiration, which is translated with a modern American spirit. The peaceful mood is one of awe and serenity carved out of chaos, now interpreted into a luxurious range of large scale woven fabrics, embroidered prints, geometric chenilles and plush, acid washed velvets, in mineral-derived colorations.
