ELEMENTS VI

INDOOR/OUTDOOR FABRIC COLLECTION

Whether your preference is beachside or poolside, or possibly gazing out from the loggia, our Elements VI collection decorates it all. Along with statement patterns, we offer a wide range of small scaled contemporary designs for broad use in seating. Named for the beautiful white and black sanded beaches on Tenerife and Costa Rica, the serenity of these blue oceans calls us back.

Technically engineered for the demands of the outdoors, all of the patterns are made of solution dyed fibers that have a lightfastness rating of 7 out of 8 (on the blue wool scale) and 2200 hours for the Sunbrella® patterns. This translates to a lightfastness of 3 to 5 years outdoor use. They are all cleanable with a diluted bleach solution or plain water and soap (not detergent). These high-performance fabrics are inherently mildew resistant, salt, and chlorine resistant, and should be air dried.

Featuring WELTON from ELEMENTS V

Featuring COMBE MARTIN from DORSET COAST

Featuring ARVADA from ELEMENTS V and SEVILLE Outdoor Carpet from STARK ETERNAL

OLD WORLD WEAVERS

ELEMENTS VI INDOOR/OUTDOOR FABRIC
