KINGSLEY

WALLCOVERINGS

Scalamandré presents the Kingsley Collection, a rich assortment of embellished wallcoverings. Our inspiration began with a classic grasscloth, well known for its rustic charm. We explored ways to enhance this textured surface with distinctive pattern, material dimension, and embroidery techniques typically used on fabric. Labor-intensive hand beading creates understated allure in two glamorous patterns, while dimensional machine embroidery takes center stage in two other styles.

Classic Scalamandré designs, including Falk Manor House, gain new character as hand-prints that take to the grasscloth surface with subtle irregularity. In some items, we created specialized layouts, giving designers the opportunity to customize the arrangement of motifs for a more paneled or all-over effect. With a dynamic mix of statement designs and trellis-inspired patterns, the seven styles of the Kingsley Collection offer a fresh take on luxury and a nuanced approach to glamour.
