GRASSLANDS

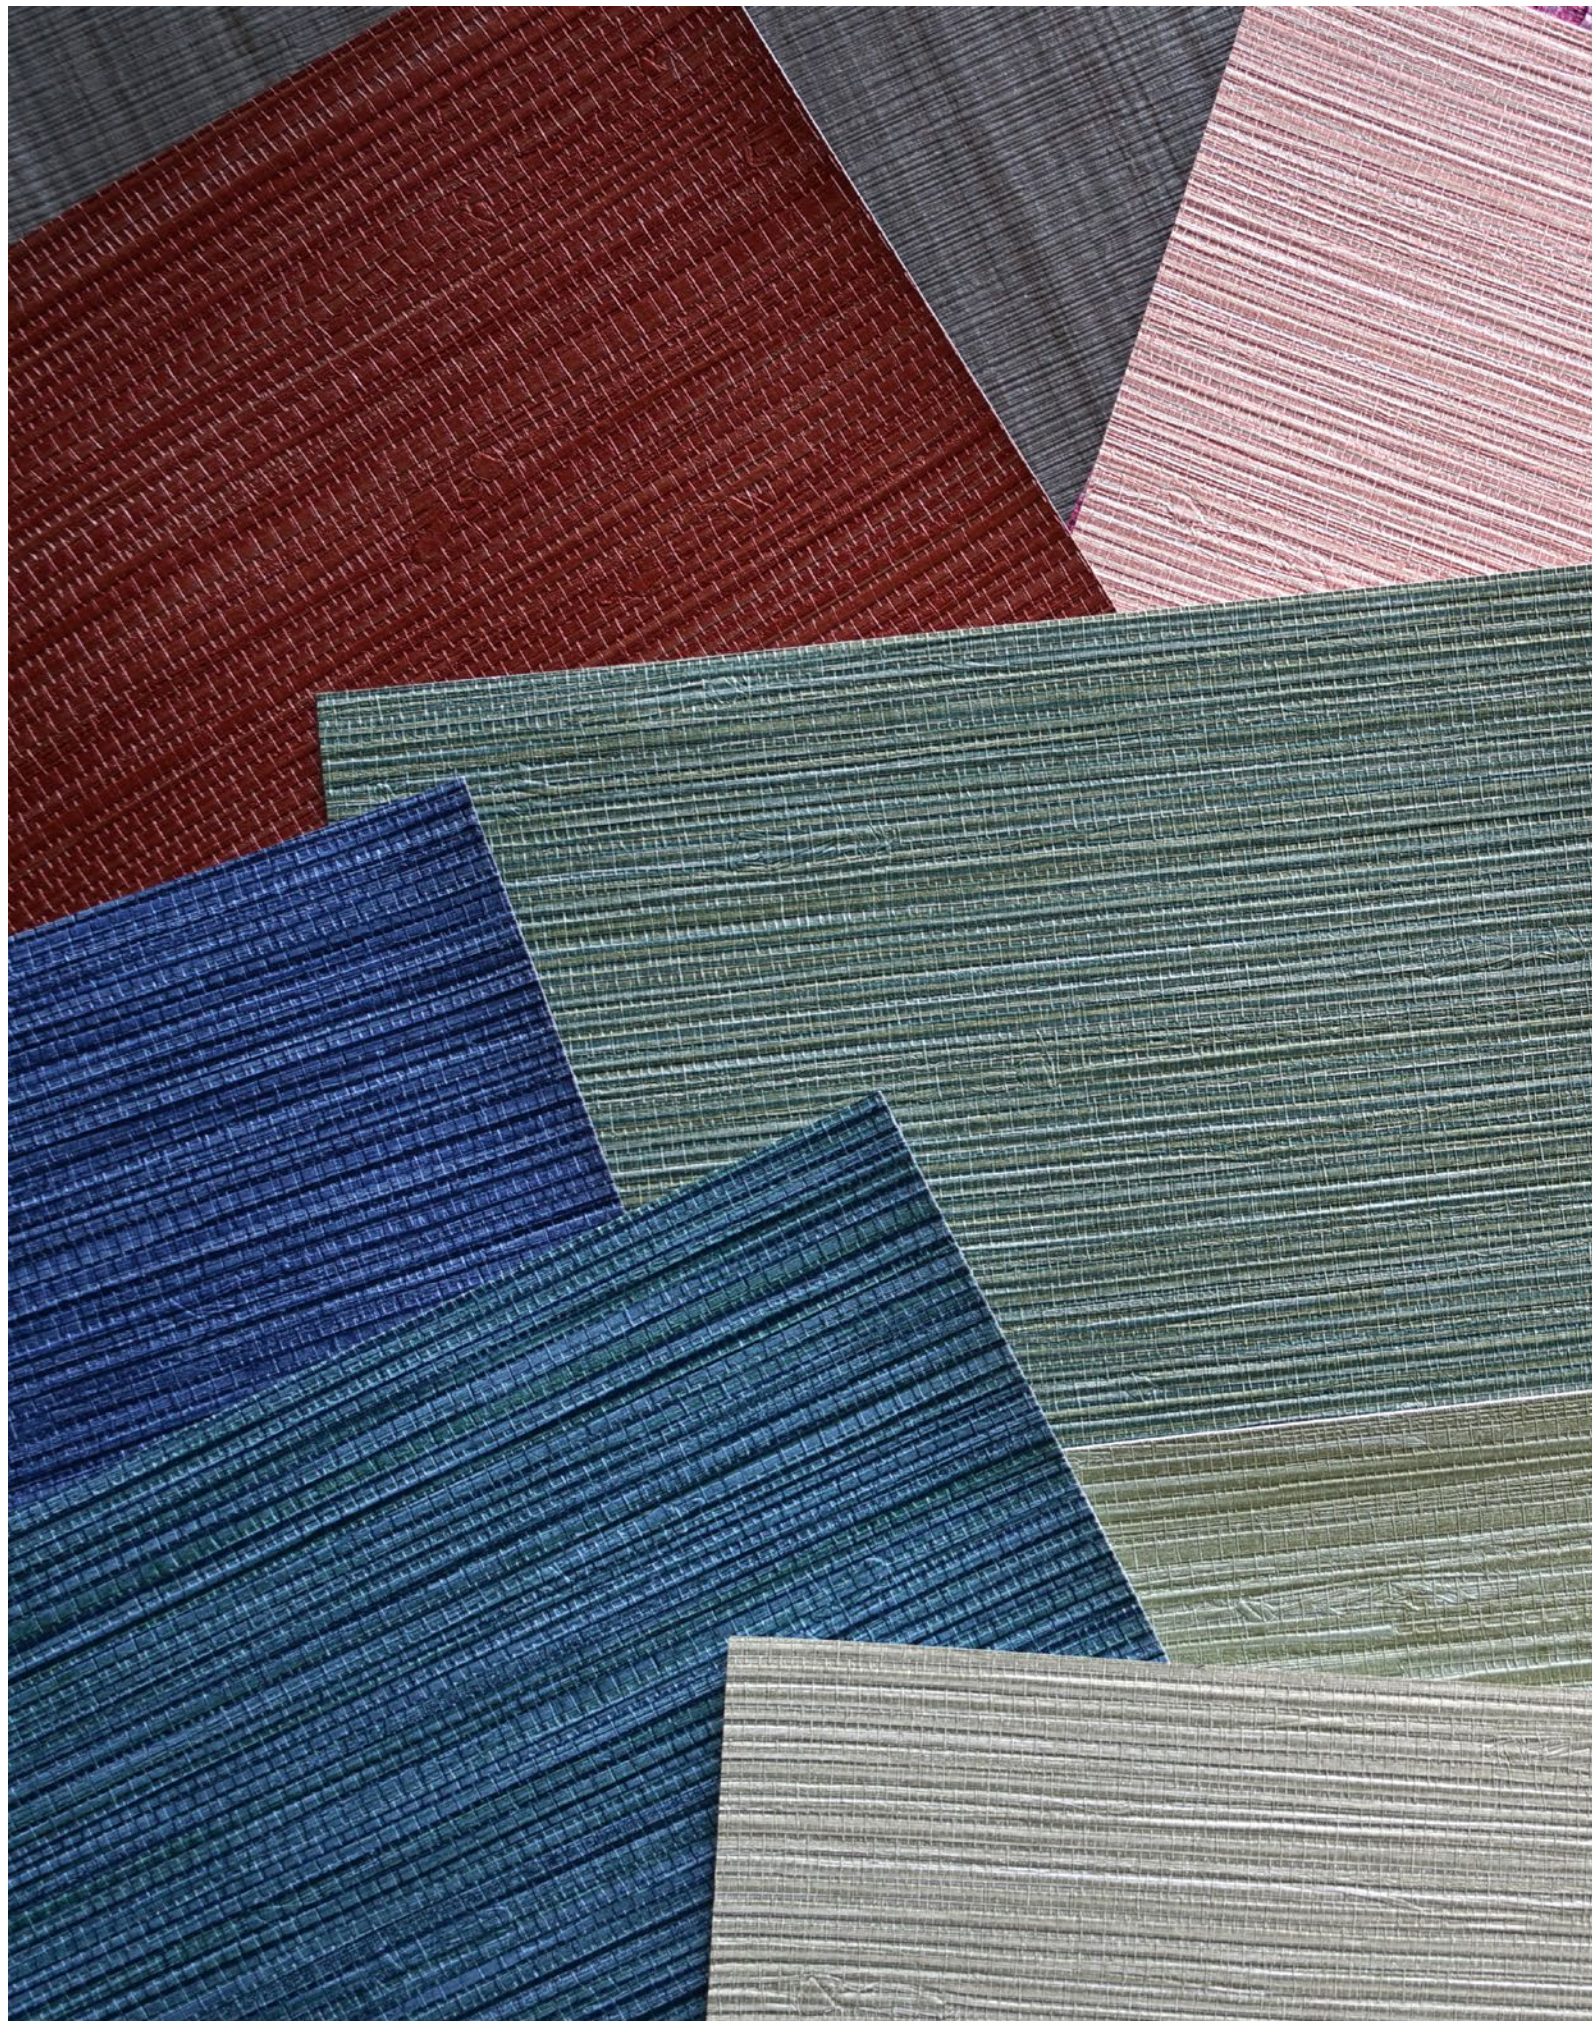

VINYL WALLCOVERING COLLECTION

Scalamandré Contract is proud to present the Grasslands – Vinyl Collection, an assortment of contract grade vinyl wallcoverings capturing the essence of woven grasscloth. Perfect for applications ranging from hospitality to residential, the Grasslands – Vinyl Collection offers the nuance of natural fibers in resilient, multipurpose Type II vinyl. Available in an expansive palette of timeless shades, this booked collection of wallcovering basics is sure to become a designer staple.

Scalamandré is a leader in the contract industry with over nine decades of experience in providing commercial grade fabric and wallcoverings for distinguished projects around the world. Known for our exceptional custom services in hospitality, Scalamandré contract textiles can be found in historical landmarks and palaces, fine hotels, and everything in-between.

FEATHER REED
11 COLORWAYS (SC WP88437)

JUTE
8 COLORWAYS (SC WP88443)

GREAT PLAINS
7 COLORWAYS (SC WP88439)

SAVANNA SEEDLING

Designed to capture the effect of woven abaca, or banana fiber, Savanna Seedling is a refined texture in fresh two-toned hues.

SEAGRASS

Soft colors blend with shades of white and ivory to create the fresh, sun-kissed look of Seagrass. An intricate embossing beautifully captures a handwoven feel.

PAMPAS

Pampas features an embossed layer that imitates the knots and bumps of woven hemp. This easy-to-use faux grasscloth is colored tonally for a semi-plain look.

WILLOW WEAVE

Layers of printed color create the subtle highs and lows of Willow Weave. Meant to feel like woven sisal, these striations of color blend to painterly effect.

FEATHER REED

Detailed embossing mimics fine warp yarns and natural wefts in Feather Reed. Each colorway is layered with a hint of metallic for subtle depth.

JUTE

Jute offers a balanced basketweave effect, with movement in both horizontal and vertical directions. The textured surface is overprinted with layers of color and metallic ink to create a naturally mottled look.

GREAT PLAINS

Vertical lines of color are balanced by a fine horizontal ribbed effect in Great Plains, which mimics the texture and iridescence of woven silk and linen. Each colorway offers a graceful gradation of tonal hues.
