If on skin or clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. For general information on this product, contact the National Pesticide Information Center (NPIC) at 1-800-858-7378, Monday through Friday, 8 a.m. to 12 p.m. PST, or at <http://npic.orst.edu>. For medical emergencies, call the poison control center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if absorbed through the skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply directly to treated, finished drinking water reservoirs.

HOW IT WORKS: TERRO® NO MESS MOSQUITO LARVACIDE POUCHES are a selective microbial insecticide for use against mosquito larvae in a variety of habitats. The product can be applied to areas with plants, fish and other aquatic life and to areas used by or in contact with humans, pets, horses, livestock, birds, or wildlife. Once applied, the product dissolves quickly to release a biological larvacide that is consumed by mosquito larvae, killing the larvae before they turn into biting adults that may transmit viruses such as West Nile to people or heartworm disease to dogs and cats.

HOW TO USE: Place product on water surface in listed sites where mosquitoes may breed. Treat on basis of surface area by placing one (1) pouch for up to 50 sq. ft. of treatment area. There is no need to open the pouches as they will quickly dissolve releasing contents.

FOR CONTROL OF MOSQUITO LARVAE IN THE FOLLOWING SITES:

TREATMENT AREAS: Ponds, bird baths, water gardens, flower pots and planters, rain barrels, fountains, gutters, unused pools, pool covers, hollow trees and tree holes, livestock watering troughs/tanks, ditches, discarded tires, and any location where water accumulates and remains standing for periods of time.** Reapply TERRO® NO MESS MOSQUITO LARVACIDE POUCHES as needed (after 1-4 weeks under typical environmental conditions).

DRAINAGE/DRAINAGE SYSTEMS: Catch basins and storm drains.**

Reapply TERRO® NO MESS MOSQUITO LARVACIDE POUCHES as needed (after 6-8 weeks under typical environmental conditions). Longer periods of mosquito population suppression may result where sufficient numbers of nontarget aquatic invertebrate parasites and predators are present since these are not affected by the product and contribute to mosquito population reduction.

**For Use in New York in Containerized Waters Only

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool, dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY AND DISCLAIMER: To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risk of use, storage or handling not in accordance with the accompanying directions.
